

KNOCKED DOWN AND RUN OVER

Careless Surrey Driver Jeopardizes
Life of a Tramway
Employee.

Gross carelessness on the part of a man driving a surrey last night almost resulted in the calling of a coroner's jury. The driver, whoever he was, after knocking down a tram car driver who was fixing a switch just opposite the central fire station on Beretania street, whipped up his horse and disappeared before anyone could pursue him. The man is described as one wearing at the time a black suit of clothes, a black derby hat, around which was a red lei interwoven with malie.

The cars come from Punahou to the fire station about 7:15 and the front one was switched over to the Progress block to wait until the church services were over. As the car passed onto the switch a tram driver off duty set the switch for the regular car and then switched back out of reach of the tram. As he did so the surrey was driven around the corner at a good gait, the driver jolting easily in the front seat, the only occupant of the vehicle. He was not looking ahead. The front wheel caught the victim on the left leg throwing him to the ground and then passed over him. He was prostrated, with one hand almost under the car, but withdrew it before the front wheel reached him.

The surrey driver looked back for an instant and then whipped up his horse and drove off rapidly. People shouted at him to stop, but without avail. A bicycle policeman was sent to various streets to ascertain the identity of the man in the surrey, but failed to catch him.

The tram car driver happily was not much hurt, but he had a narrow escape.

A., Chief of the Philippine Bureau of Forestry, has made a report on the forest resources of the islands which is a notably interesting and valuable addition to the common fund of information concerning the Archipelago. Captain Ahern urges a steady increase in the work of the bureau and adds that its great need is more trained in the higher duties of forestry to co-operate in the development of the lumber interest, which is likely to become one of the great industries of the islands."

Search for John Horton.

Traces, lost for fifteen years, are being searched for again by Mrs. Imogene Robinson, of Mattituck, L. I., a niece of John Horton. Horton sailed in 1843 from Sag Harbor for Sydney, Australia. Occasional letters kept his friends informed until about 1887, when they knew that he was in Honolulu. He was then about 71 years of age, and according to the information received by the family, was quite wealthy, though he was as eccentric as well-to-do. Some two years ago an advertisement was seen in the East asking for the heirs of Horton, but the paper was destroyed before it came into the hands of one who knew who were those heirs. Several persons here now are trying to find a trace of Horton's movements for the benefit of his relatives, who are not so wealthy as he was reputed to be.

Good Cheer for Thirsty People

Quality in soda is everything. Customers say ours has the flavor, snap and fiz that they enjoy and can't get elsewhere. But you are a good judge of soda. Pretty good idea to follow the crowd that comes here day after day. Must be some reason for it—there is. Soda is only a trifle. Most merchants treat it as a trifle. But with us this has the same careful attention that every other department of our business receives. We spare neither pains nor money to make it right. The water is carbonated on the premises. Fresh cream made daily from cow's milk; fruit flavors used exclusively. From start to finish it is absolutely right.

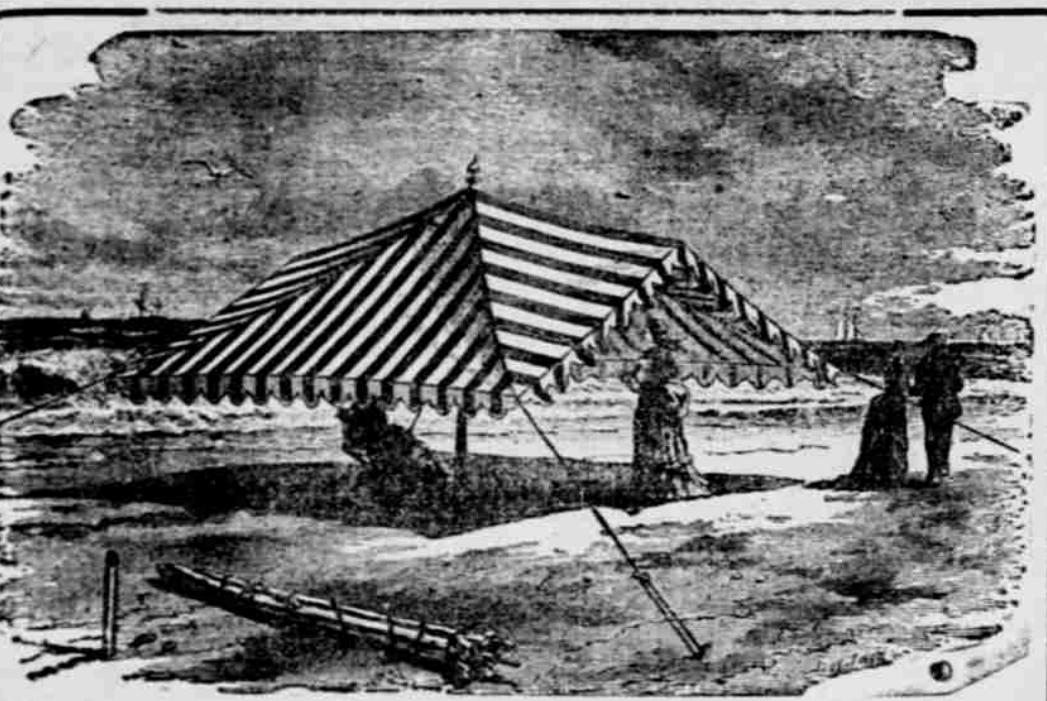

Next month we move to our new store, Ehlers' block, Fort street, where more room can be spared for soda. We have some agreeable surprises in store in liquid refreshments. After we are well settled we will have an opening day, when every lady will receive a souvenir and free soda to everyone all day long. We are making a run on
